Professional Experience

Java Developer, *Accenture*

04/2023 – 01/2024

Designed, implemented, and maintained efficient backend services using Java technologies in the Amazon Web Services (AWS) environment.

Software Engineer, *Number 8*

03/2022 – 08/2022

Played a key role in the development of the 'Tools' mobile-web application, focusing on managing user schedules, providing directions on Google Maps, and overseeing vehicle repair status.

Java Developer Semi-Senior Advanced, *Globant*

09/2020 – 09/2021

Led the analysis, design, development, testing, and documentation generation of Java applications based on microservices for a digital wallet app.

Fullstack Developer, *Imagosur*

06/2016 – 09/2020

As a FullStack Developer, contributed to the design, development, testing, deployment, maintenance, and support of various applications, including web apps, desktop UIs, desktop services, CLIs, Rest APIs, or mobile apps.
