Education

Analista Programados, *Universidad Abierta Interamericana*   08/2022 – present

Professional Experience

Java Developer, *Accenture*   08/2022 – 01/2024
Designed, implemented, and maintained efficient backend services using Java technologies in the Amazon Web Services (AWS) environment.

Software Engineer, *Number 8*   09/2021 – 08/2022
Played a key role in the development of the 'Tools' mobile-web application, focusing on managing user schedules, providing directions on Google Maps, and overseeing vehicle repair status.

Java Developer Semi-Senior Advanced, *Globant*   09/2020 – 09/2021
Led the analysis, design, development, testing, and documentation generation of Java applications based on microservices for a digital wallet app.

Fullstack Developer, *Imagosur*   06/2016 – 09/2020
As a FullStack Developer, contributed to the design, development, testing, deployment, maintenance, and support of various applications, including web apps, desktop UIs, desktop services, CLIs, Rest APIs, or mobile apps.
